

TAKING RECORDS OF HAWAIIAN OLIS

Yesterday forenoon Prof. Brigham made a successful effort to record some of the ancient Hawaiian olis in the phonograph. Five of the aged natives of the Lunalilo Home were brought to the Bishop Museum where preparations had been made to receive them. Standing before the phonograph they sung, in turn, the ancient lyrics.

Dr. N. B. Emerson attended and made some translations as these were delivered. Among these olis was one of Kamehameha I., another of Pauahi, another of Hiliaka, the sister of the goddess Pele; another of Kalakaua, and another of Lunalilo. The olis were repeated back to the old singers, to their great delight. After these records were made, the old natives were taken to Bishop hall, where a large audience of the students had quickly assembled. Before the students the aged singers repeated the olis, which were only partially understood by the younger natives, but were received with much pleasure. These, in turn, sang for the old natives Hawaii Pono! and Aloha Oe. Prof. Brigham has now secured a permanent record of some of the old lyrics, which will be of great value in the future.

The Janet Waldorf Season.

Good business was done yesterday at the opening of the plan of reserved seats for "Sweet Nell of Old Drury," the first performance on Tuesday evening, 10th March, by the Waldorf Company. This argues well for a big house on that occasion, and if the company maintains the reputation that has preceded them they should have a very successful season, which is intended to extend over three weeks, playing on Tuesday, Thursday and Saturday evenings. A new bill will be presented each evening. Seats are on sale at Messrs. Wall, Nichols Company, and the price of tickets is as usual.

Another Burglary.

The house of William Trask, near the United States Experiment Station, on Tantalus, behind Punchbowl, was broken into some time on Thursday, and a bank book showing a deposit of \$30 was stolen. So far as Mr. Trask knows of nothing else was taken.

Mr. J. C. Wood, who has been for the past seven months employed in the Marine Electrical Department of the Union Iron Works, of San Francisco, returned by the Alameda to re-enter the employ of the Guy Owens Electrical Construction Co.

THIS IS THE SEASON when death stalks through the land in the form of pneumonia. The surest defense against this disease is Chamberlain's Cough Remedy. It always cures and cures quickly. Benson, Smith & Co., Ltd., wholesale agents, sell it.

Important Reasons

Why Herring-Hall-Marvin Safe Co. Safes
and Locks are the Best.

The concrete filling makes these safes absolutely fire proof and positively damp proof. The solid angle corners add greatly to their security in time of fire and form the only solid corners made. The patent Bolt Work is superior to any in use and does not require the constant oiling, cleaning and repairs that is acknowledged in other makes of safes. That although 600,000 of these safes are now in use and many thousands have been tested by some of the most disastrous conflagrations in the United States, there is not a single instance on record wherein one of them ever failed to preserve its contents perfectly. They make safes for county treasurers, county recorders, county clerks, jewelers, hotels, residences, churches and corporations. We have a large assortment of safes on hand and will be pleased to show same.
